DETAILED ACTION

Election/Restrictions

Claims 28, 31 are pending and subjected to the following restriction requirement.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1. Claim 28, drawn to a kit comprising oligonucleotide sequences of SEQ ID NO:21, classified in class 536, subclass 24.3.

Group 2. Claim 31, drawn to a method for determining expression of a MAGE-3 gene, classified in class 435, subclass 91.2.

The inventions are distinct, each from each other because of the following reasons:

Groups 1 and 2 are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (M.P.E.P. 806.05 (h)). In this instant case, an oligonucleotide sequence could be used in a materially different processes, such as for making a vector, and for antisense therapy of a disease.

Because these inventions are distinct for the reason given above and have acquired a separate status in the art, and further, because the searches for the groups are not co-extensive, and therefore, it would be a serious burden for the Examiner to examine all the groups and species together, restriction for examination purposes as indicated is proper.

Applicants are required under 35 USC 121 to elect a single disclosed group for prosecution on the merits to which the claims shall be restricted even though the requirement could be traversed.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MINH-TAM DAVIS whose telephone number is 703-305-2008. The examiner can normally be reached on 9:30AM-4:00PM.
